RAVATHERM XPS X WASTE DISPOSAL

RAVATHERM XPS X products are considered non-hazardous as they are chemically inert. Any dust created during cutting/trimming & installation of **RAVATHERM XPS X** products should be minimised but would be classed as non-hazardous.

Any off-cuts of **RAVATHERM XPS X** products should be disposed of according to applicable legislation if their recycling is not possible according to local regulations.

Clean, undamaged **RAVATHERM XPS X** products can be reused if required.
